Montague, NJ 07827

Re: ACO Services for 2006

Dear Helen:

As you are aware, the Township Of Wantage provides animal control and dog pound services to surrounding communities, under interlocal service arrangements. Some towns utilize only our dog pound facility, while maintaining their own Animal Control Officer. Other towns contract with Wantage Township for both ACO and Pound services. In calendar year 2005, Montague Township utilized our Animal Control services.

The Township Of Wantage shall provide animal control services to Montague Township for a flat fee of \$4,100 in calendar year 2006.

The above-stated fees represent all costs that would be charged by the Township Of Wantage in providing Hampton with animal control services, for calendar year 2006.

If it is the desire of your governing body to accept this arrangement, please complete the enclosed agreement and return three signed copies. I will have the governing body of Wantage accept the contract, and I will then return one fully executed copy of the contract for your files.

Yours Very Truly,

James R. Doherty,  
Administrator Clerk
