The primary mission of the FealGood Foundation, a non-profit organization, is to spread awareness and educate the public about the catastrophic health effects on 9/11 first responders, as well as to provide assistance to relieve these great heroes of the financial burdens placed on them over the last eight years. A secondary goal of the Foundation is to create a network of advocacy on 9/11 healthcare issues. We not only advocate for Ground Zero workers, but show others how they can advocate for themselves and help others through grassroots activism.
